

The students in Room 2 presented a very topical assembly last Friday. There was a play about earthquake safety and a power point presentation featuring disasters over the last 80 years. They also displayed the postcards they had written about their summer holiday.

We have decided to limit wheels day to Monday's only so that the courts are available for miniball players, tennis players and other users. So feel free to bring your bike, scooter, roller blades etc on Monday's and don't forget your safety gear!!
