

Thank you to Cooper's Dad Garry who came in to Room 2 to speak to the students about his country of birth, Canada. The children have chosen countries to study that are here to play in the world cup and it is wonderful to get first hand knowledge from someone who was born and bred there. Thank you Garry for making the time to come in.

### Assembly 9 September 2011

Room I presented a very entertaining assembly last Friday. The whole school went on a flight with World Cup rugby supporters. The chairs in the library were set out in rows like the inside of an aeroplane, there with pilots, flight crew and passengers. We took our seats and the in flight entertainment began with films featuring the Year 6 ski trip and the cross-country event. The flight attendants did an excellent job of demonstrating the safety procedures and all on board had a great flight. Our photo shows some of the World Cup rugby supporters who enjoyed the flight: Laura, Sarah, Brendan and Charlotte.

### KWH Prizegiving

Coach Jason with the tokens of appreciation given to him by his 6th grade rugby team. A ball signed by all the team members and a beautiful stylized rugby ball carving made by Montique's uncle.

The Winter Sport season was concluded with an enjoyable prize giving function last Friday evening. Each Rugby and Netball team had their turn on stage to thank their coaches and managers and to receive certificates and prizes. This was followed by a pizza and chips dinner. Thank you to Jason Cameron for instigating this event that brought together the Karapiro, HoraHora and Whitehall communities.

### SUSHI TIME

Garth and Anton from Project Energize taught our Room 1 students how to make sushi this week as part of a healthy eating study. Garth also imparted a lot of knowledge about Japan where he had lived for a number of years.
